# GOALS Peer Friendship Project

The Goals Peer Skills Friendship Project was established to give all children age 11-16 years, the opportunity to enjoy activities together and promote awareness of valuing everyone equally.

Volunteers are recruited from main stream schools in Durham and Easington, to provide appropriate and meaningful support to young people with learning disabilities.

Volunteers are given training to increase awareness of disability issues and individual needs in order to enhance their personal development skills and gain increased social and leisure opportunities for all.
